What makes up a Form Energy system

Electrodes

Component parts of an electrochemical unit

Iron anodes & air cathodes

Size of a Window Pane

Battery cell

Smallest electrochemical functional unit

Electrodes + electrolyte

Size of a Compact Car Door

Battery module

Smallest building block of DC power

30 battery cells

Size of Washer+Dryer Set

Enclosure

Product building block with integrated auxiliary systems

10 modules

Size of a Shipping Container

Power block

Product system unit and AC power building block

64 enclosures

Size of a football field
