

# APPALACHIAN POWER'S COMMITMENT TO WEST VIRGINIA

*In 2024, Appalachian Power\* spent more than \$1.2 billion in West Virginia through investments and its operations.*

**GENERATION:** Upgrading equipment to keep John Amos, Mountaineer and Mitchell power plants in compliance with EPA regulations

**RELIABILITY IMPROVEMENTS:** Rebuilding aging infrastructure to strengthen reliability throughout several West Virginia counties

**CUSTOMER AFFORDABILITY:** Working to reduce electric rates for West Virginia customers through initiatives such as securitization, seasonal rates and large load tariffs

*\*Includes Wheeling Power*
